Prayers of repentance and contrition in light of the horrendous events of the past few days with bills authorizing grotesque infanticide passed in New York and under nauseating discussion in Virginia. With the majority of America's political establishment either silent on or supportive of these monstrosities and Christian Church intimidated and impotent in the face of our country's accelerating moral collapse we kneel before him with bitter regret. At the same time, we mourn the prevalent moral corruption within the church itself reemphasized with the belated (after years of cover-up) by church authorities) announcement of hundreds of "credible cases" of pederasty committed by clergy here in Texas this week. We pray that God would forgive and redirect us both to practice and to advocate life and decency in the name of Jesus Christ. We pray that He may withhold the righteous judgement which our America deserves and give us time to bring about revival in the nation of the church.
